Catalog 2016-2017

# Safety you can see!

Our advanced light engine technology has been on the **forefront** of automotive lighting for more than 100 years. As a **leading supplier** of lamps and lighting products to the automotive industry and aftermarket, we combine technical **innovations** with a genuine concern for **safety** and driving **comfort**. Our automotive lighting is today **the choice** of many consumers and major automobile manufacturers. Our **mission** is to introduce **innovative products**

that constantly improve **road safety** and increase **workshop productivity**. Our products are designed to perform **efficiently** and **durably** for continuous **customer satisfaction**. Many garages and workshops already appreciate our new range of LED inspection lamps for their outstanding **light output** and **robustness**.

**High-quality lighting** really does make a **difference**. That's **safety** you can **see**!

# High manufacturing standards

## Original Equipment Quality

We are committed to producing **best-in-class products** and services in the Original Equipment Manufacturer (OEM) market and automotive aftermarket. Our products are manufactured from **high-quality materials** and tested to the highest specifications to maximize **safety** and driving **comfort** of our customers.

- We are the **choice** of major car manufacturers
- Our lighting equips **one in two cars** in Europe and one in three in the world
- Manufacturing processes that **exceed** current industry **specifications**

## Philips anti-UV-quartz glass for optimal lighting performance

**All our halogen and xenon headlamps are made with high-quality anti-UV quartz glass**

- **More powerful light**  
Quartz glass high resistance allows for increased pressure inside the lamp and thus generates more powerful light.
- **Better resistance**  
Philips quartz glass lamps (filament at 2 650°C and glass at 800°C) are capable of withstanding severe thermal shocks.
- **Optimal protection against ultraviolet rays**  
All Philips quartz-glass lamps are coated with a special anti-UV coating that protects your modern plastic optics from harmful UV rays.

# Change headlamps in pairs

Efficiency for you,  
safety for your customers

Research shows that light has an incredibly important role to play in road safety. It is also the only 'active' safety feature on a vehicle that helps to prevent accidents. Changing headlamps in pairs: a small, fast and easy act with a turnover impact that can have a big effect on your customers.

# Kits

A nighttime photograph of a multi-lane highway. Several cars and a large truck are visible, their headlights and taillights creating a sense of motion. The scene is dimly lit, with the primary light sources being the vehicles' lights.

# Spare and headlight restoration **kits** for cars and trucks

For increased **safety**, it is **recommended** by most European countries that all vehicles be equipped with a **homologated spare kit**. It will not only keep drivers in **compliance** with the law, but will also keep them **safer** as they will always be prepared to **replace** a burned-out lamp.

Our **Headlight restoration kit** renovates car, truck and two-wheeler lenses to like-new condition. It's our **cost-effective alternative** to complete headlight replacement.

# Headlight restoration kit

## Safety

Restores headlight lenses to like-new condition!

- Less glare and up to 100% brighter lenses
- Provides safer night-time driving
- Removes haze and yellowing from harmful UV-rays and dirt
- Professional results without power tools in 30 minutes
- High-quality and economical
- 2-year UV-protection guaranteed

Removes the fading and yellowing of headlight lenses and restores them to their original state of **transparency** for **greater safety**. Headlight lenses fade and oxidize from constant exposure to the elements and become scratched due to impacts.

# Our **pro-active solution** against xenon lamp **piracy**

## COA Certificate of authenticity

**Counterfeit** Philips xenon lamps are becoming increasingly available through online and offline distribution channels.

These counterfeit lamps are **poor imitations** of **inferior quality**.

Buying, selling or being in possession of counterfeit products is illegal.

To **protect** our customers and all consumers from counterfeit Philips lighting products, we've created a **pro-active solution** using unique, **state-of-the-art** technology.

Philips **Certificate of Authenticity (COA)** is available on **every xenon lamp package you order**.

Using the **Security code**, professionals can verify the **authenticity** of the Philips

product on a dedicated, fully secure internet platform. Professionals can either scan the QR code or go to **www.philips.com/original**.

We are committed to helping **protect** our customers from poor imitations of inferior quality that may damage your vehicle or result in personal injury.

**Always ensure that you are buying genuine Philips products.**

## Visual verification

## Online verification

**1** Connect to [www.philips.com/original](http://www.philips.com/original) follow the simple instructions:

**2** Type in the unique security code

**3** Type in the label ID number

Retype the code again to make sure it's been entered correctly. Additional rejection of code entry may indicate this product is counterfeit.

## LED technology

### Vision LED

- Stylish light
- Easy replacement
- 12-year lifetime

Available in  
**Festoon 14x30, Wedge base (T10), P21 Red,  
P21/5 Red, W21/5 Red**

Enjoy  
your passion

## Upgrade to ultimate LED style and brightness

### X-tremeVision LED

- Stylish light
- Easy replacement
- 12-year lifetime
- Intense and deep colors
- Innovative features:  
AirFlux, CeraLight, SafeBeam

Available in  
**H4, H8/11/16, Festoon 14x30, 10,5x38, 10,5x43,  
Wedge base (T10), P21 Red, P21/5 Red,  
PY21 Amber, WY21 Amber**

**Important** LED lighting is for interior and off-road use only. Philips LED headlamps, fog and signaling lamps are currently not ECE homologated and are not for use on public roads. When using LED headlamps, fog and signaling lamps on public roads, you risk losing your driver license and car insurance, as well as legal penalties.  
**Philips LED lighting is not available in all countries.**

Boost/eco modes

# HDL10

50° beam angle

## Quality finish

- 90° pivoting head lamp
- Adjustable headband
- Water resistant
- Powered with 3 Philips AAA batteries

## Precise beam angle

- 50° beam angle
- Long-lasting LED

## Dual light mode

- 100lm boost LED light for high-precision tasks
- 50 lm eco LED light for a quick inspection

Philips high-power LED head lamp is a perfect tool for hands-free repairs. With 90° orientable head you can easily direct your light wherever you need to see. The eco and boost light modes as well as its wide beam angle offer superior illumination of your work space.

LPL19B1

130 lm

# Penlight Professional

The portable inspection tool

## Intense white light for optimal vision

- High-quality LEDs with 130 lm light output
- Natural white light of 6000 K

## Accesses very narrow cavities

- LED pointer on top 20 lm
- Small and compact

## Up to every inspection job

- Water, dust and solvent protection: IP54
- 11-hour battery autonomy

Philips Penlight Professional is a durable and reliable inspection tool, featuring six long-lasting and powerful LEDs producing 130 lm of bright, natural white light for precise inspection of any area.

## PEN20

Powerful rechargeable LED light, fits in your pocket

### High-quality white LED light

- Defeat darkness with bright, soft natural light
- High-quality LUXEON® LED light up to 200 lm
- Lights a large work area with 80° wide-beam angle

### Ultra-durable battery

- New battery lasts 5x longer than most rechargeable batteries
- Increased autonomy and ultra-fast USB recharge

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

### Hands-free lighting

- Work hands-free with built-in 80° swivel hook and magnet

New

LPL28RECHX1

145 lm

## Penlight Premium

Compact, USB-rechargeable

### See what remains hidden to others

- Defeat darkness
- High-quality LUXEON® LED: 145 lm light output  
Focus light: 120 lm light output
- Wide-beam 80° angle

### High resistance hands-free lighting

- Strong impact resistance - IK07
- Water and dust-protected - IP54
- Resistant to chemicals

### Ultra-durable battery

- New battery lasts 5x longer than most rechargeable batteries
- Increased autonomy and ultra-fast USB recharge

LPL38X1

## RCH6

130/70lm  
Boost/eco modes

### Pocket and head compact LED light

#### Pocket and head - dual function lighting

- Multipurpose lighting, slim design
- 90° pivoting head lamp
- Powerful magnet and headband
- FindMe feature

#### Superior bright light

- Defeats darkness
- High-quality 130lm LUXEON® LED
- 90° wide-beam angle

#### Ultra-durable and fast charging battery

- 5x longer lifetime with new, advanced technology battery
- Long autonomy and ultra-fast recharge

#### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

The Philips RCH6 LED inspection lamp is designed for all precision inspection jobs. Its compact design and 130lm strong light makes it extremely versatile. And the headband (supplied) allows for full hands-free lighting.

LPL20X1

150 lm

## RCH10

New easy-open cap with magnet

### More light output

- White LED light 150 lm

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

### Hands-free lighting

- Cordless, with rotatable hook and magnet on the bottom

The compact rechargeable LED inspection lamp is ideal for quick inspection and longer repair operations. It eliminates all shadows with its strong 120° light beam while its 360° rotatable hook provides a hands-free working environment.

240/120 lm  
Boost/eco modes

## RCH21

Rechargeable compact LED inspection lamp

### High-quality white LUXEON® LED light

- Defeats darkness
- High-quality LED light: 240 lm boost and 120 lm eco
- Wide beam angle - 90°

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

### Ultra-durable battery

- New battery with 5x longer lifetime
- Long autonomy and ultra-fast recharge

### Handy and versatile

- 90° flexible light module
- Hands-free: 360° retractable hook and powerful magnet
- Red FindMe indicator while in stand-by mode

LPL34UVX1

# RCH31UV

## Rechargeable compact LED inspection lamp with UV

### High-quality white LUXEON® LED light and UV leak detector

- High-power LED light: 350 lm boost and 150 lm eco
- Wide beam angle – 90°
- UV-light leak detector

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

### Ultra-durable battery

- New battery with 5x longer lifetime
- Long autonomy and ultra-fast recharge

### Handy and versatile

- 90° flexible light module
- Hands-free: 360° retractable hook and powerful magnet
- Red FindMe indicator while in stand-by mode

LPL35X1

330 lm

# CBL10

## Cabled and compact LED inspection lamp

### High-power white LED light

- Defeat darkness
- High-quality 330 lumen LED light
- Wide-beam 120° angle

### High resistance

- Resistant to chemical and workshop solvents
- Strong impact resistance: IK07
- Water and dust protected: IP54

### Compact and hands-free lighting

- Powerful light in a compact design
- 360° adjustable and retractable hook

Our LED CBL10 inspection lamp features powerful LEDs for an intense white light and a bright wide beam to defeat darkness. Designed to optimize clarity and vision quality, the 6000 K white light also improves visual comfort for fatigue-free work.

LPL22X1

330/150 lm  
Boost/eco modes

## CBL40

### LED multipurpose inspection lamp

#### Dual usage: corded and cordless

- 6-meter cable
- Up to 2 hours of cordless usage

#### More light output

- High-power LEDs
- 75° beam angle

#### More eye comfort

- White LED light
- 6500 K

#### Powerful LED focus light

- High-quality LED
- Hands-free lighting
- 360° clipping hook with magnet

With its smart back-up battery, the LED multipurpose inspection lamp offers the comfort of a traditional lamp and the benefits of a rechargeable lamp. Its slim design and focus light illuminates even the smallest details.

LPL33X1

900 lm

## CBL50

### Professional LED bonnet\* lamp

#### More light output

- High-quality LED
- 75° beam angle

#### More eye comfort

- White LED light
- 6500 K

#### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

#### Hands-free lighting

- Adjustable telescopic mounting

The Philips LED bonnet\* lamp offers a powerful 900-lumen light output to ensure total illumination of your working area. With its adjustable telescopic mounting, this professional bonnet\* lamp will illuminate any engine compartment.

## PJH20

### Rechargeable LED projector for paint shops

#### Superior and convenient bright light

- Easily match colors as if you were working in daylight
- High Color Rendering Index (CRI 92) reveals true color
- Multipurpose, two-step light output (2300/1200 lm)
- 90° wide-beam angle to light your entire work area
- Matte filter reduces glare for your working comfort

#### Versatile

- Dual battery and cable power: easily switch between rechargeable and cabled power source
- Flexibility with 5-meter cable
- With a handy tripod mount (to be ordered separately), simply position for the most efficient lighting

#### High resistance

- Ultra-strong impact resistance: IK09
- High water, dust and solvent protection: IP67

Two-step light output

New

LPL403MODX1

## MDLS CRI

### 3-module multidirectional LED lamps for paint shops

#### Powerful light that eliminates shadows

- Easily match colors as if you were working in daylight
- High Color Rendering Index (CRI 92) reveals true color
- Eliminates shadows with 360° full light coverage
- High-quality, two-step light output (1500/750 lm)
- Matte filter reduces glare for your working comfort

#### Versatile

- Work hands-free while easily controlling light direction
- New, advanced technology battery provides 5x longer work time

#### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protection: IP54

**Note:** single spare module may be ordered separately

# Lighting technology explained

[www.philips.com/automotive](http://www.philips.com/automotive)

## ■ Asymmetrical beam pattern

An offset beam pattern for low-beam applications. Provides a longer beam in the lane of travel, which avoids blinding oncoming traffic.

## ■ Ballast

The electronic driver that controls a xenon HID bulb.

## ■ Base

Bottom part of the bulb which ensures a proper mechanical and electrical connection with the lamp unit of the car. Its precision is important for a correct beam pattern.

## ■ Board voltage

Electrical voltage in the board net of the vehicle. In cars, the operational voltage at the bulb connector typically varies between 13 and 14 volts (V). The official test voltage for halogen headlight bulbs is 13.2 V according to ECE R37. For trucks with a 24 V board net the test voltage is 28 V. The board voltage has a significant impact on filament bulb lifetime. In general, a 5% voltage increase reduces the lifetime by 50%.

## ■ Burner

Burner is the glass part of a halogen or xenon HID bulb in which the light emission is generated. It consists of hard or quartz glass and contains the filament and the two electrodes.

## ■ Candela (cd)

Unit of luminous intensity that measures the amount of luminous power emitted by a light source in a particular direction.

## ■ Color temperature

Thermal measure for light color. Derived from the color emitted by a "black body" which is heated up to a certain temperature (see also Kelvin).

## ■ Cut-off zone

The line between the bright and dark zones of low beam light. Above the cut-off zone the amount of light is limited in order to avoid blinding oncoming traffic.

## ■ D(...)

Nomenclature for xenon HID bulbs where **D** stands for "discharge." Available technical types: **D1S**, **D1R**, **D2S**, **D2R**, **D3S**, **D3R**, **D4S**, **D4R** and **D5S**.

**D1** and **D2** First bulbs introduced in 1991

**D3** and **D4** Mercury-free bulbs that replace D1 and D2

For D1 and D3, the electronic high-voltage starter is already integrated in the bulb base. The **S** type is used with projector (lens) systems. Version **R** is used in open reflectors and features an additional coating on the outer tube (pinstripe) which blocks out some areas to avoid glare. The **D5S** is a 25-watt bulb with integrated starter and integrated ballast.

## ■ Discharge bulb

The correct, technical term of the so-called xenon bulb is **high-intensity discharge** bulb. The light is emitted by an electric arc which is produced between two electrodes. **See also** HID and xenon light.

## ■ DOT

The United States Department of Transportation which oversees federal highway, air, railroad, maritime and other transportation administration functions. It fulfills a role similar to the Economic Commission for Europe (ECE).

## ■ DRL

Daytime Running Lights.

## ■ ECE

Economic Commission for Europe. One of five regional commissions of the United Nations (UN) based in Geneva that contributes to enhancing the effectiveness of the UN through the regional implementation of outcomes of global UN Conferences and Summits. The ECE is responsible for harmonizing technical specifications for vehicles whose regulations are also mandatory in many countries outside Europe.

## ■ ECE R

This stands for the ECE Regulation.

Examples for vehicle lighting:

**R37** Filament lamps

**R99** Gas-discharge light sources

**R48** Installation of lighting and light-signaling devices

## ■ Electric arc

The connecting luminous discharge between the two electrodes of a xenon HID bulb. This is similar in principle to a bolt of lightning. The electric arc is created by the high-voltage starter and stabilized and controlled by the ballast.

## ■ Electrodes

Electrical conductors which are positioned opposite each other in the vessel of a xenon gas-discharge bulb. The electric arc, which emits light, is produced between the electrodes.

## ■ E-mark

The ECE mark of approval. The digit following the "E" indicates in which country the approval has been granted. For example: E1 indicates Germany and E2 indicates France. An approval granted by one ECE member is valid for all member states and is typically adopted by national regulations. Single minor deviations are possible.

## ■ Festoon

A tube-shaped bulb with contacts at each end such as C5W, which is commonly used for interior and license plate lighting.

## ■ Filament

A coiled tungsten wire that emits light.

## ■ H(...)

Nomenclature for halogen bulbs. H = halogen. The bulbs are numbered consecutively.

The most common types are:

**H1** First halogen bulb (single filament).

**H4** Double filament for both low beam and high beam application in one headlamp unit.

**H7** Most common halogen bulb in Europe for low beam, high beam, and fog lighting.

## ■ Halogen

A gas that is used to create the halogen cycle process in a light bulb. During operation the tungsten molecules evaporate from the tungsten. In the cycle process they combine with the halogen molecules and fall back to the wire. This extends the lifetime of a bulb and allows operation at a higher intensity. Halogen bulbs contain a high-pressure halogen filling. Non-halogen incandescent bulbs often use a vacuum.

## ■ HB(...)

ECE name of original North American bulb types which were approved for use in Europe as well. For example: HB3 refers to 9005 and HB4 refers to 9006.

## ■ Hg

Symbol for mercury (Latin: hydrargyrum). Xenon bulb types D1 and D2 still contain approximately one third of the amount of mercury as a normal domestic energy-saving bulb. D3, D4 und D5 are completely mercury free.

## ■ HID

High Intensity Discharge. Correct technical name for a so-called xenon bulb.

**See also** gas-discharge bulb, xenon light, xenon system.

## ■ High-voltage starter

Creates high-voltage pulses of approximately 20,000 volts to ignite the electric arc in a xenon HID bulb.

## ■ HiPerVision

Very compact signaling-bulb range with high-precision filaments and a long lifetime. For use in signaling lights, fog lamps, rear and daytime running lights.

## ■ Illuminance (lux)

Contrary to luminous flux (lumen), which is a measure of the total amount of light emitted by a light source, illuminance describes the amount of luminous flux per unit area, such as on the road. This is measured with a lux meter.

## ■ Kelvin (K)

A unit of measure of temperature based upon an absolute scale whereby zero (minus 273° C) represents the point where all thermal motion ceases. In lighting, however, this is a measure of color temperature. The higher the color temperature, the whiter and cooler the light appears.

## ■ LED

Light Emitting Diode.

## ■ Lifetime

Statistical data that indicate the failure rate of a percentage of bulbs operated at a specific voltage over a certain period of time. Common lifetime data indication:

**B3** Time when statistically 3% of the test samples have failed

**TC** Time when 63% of the test samples have failed.

## ■ Luminance

The intensity of light emitted from a surface per unit area in a given direction from, for example, the filament or the electric arc of a xenon HID bulb. An important indicator of the amount of light a headlamp unit provides on the road. The unit is candela/m<sup>2</sup> (cd/m<sup>2</sup>).

## ■ Lumen (lm)

Unit of luminous flux.

## ■ Luminous flux (lumen)

The total amount of light that is emitted by a light source in all directions.

## ■ Lux (lx)

Unit of illuminance. 1 Lux = 1 lm/m<sup>2</sup>.

**See also** Illuminance.

## ■ Lux meter

Illuminance measuring device.

## ■ Pb

Symbol for lead (Latin: plumbum).

All Philips automotive bulbs are **lead-free**.

## ■ Quartz glass

Temperature and pressure resistant glass for halogen and xenon HID bulbs. The glass also has a special coating to block out harmful ultraviolet (UV) light.

## ■ Tungsten

Filament and electrode material.

## ■ UV-block

Ultraviolet (UV) blocking glass absorbs the UV light created by the filament or the electric arc. UV block is mandatory for all ECE complying car bulbs because UV light can damage the plastic cover of the headlamp.

**See also** Quartz glass.

## ■ Wedge base

Bulb with a glass base, such as W5W. Mainly used for parking lights, side indicators and interior lighting.

## ■ Xenon (Xe)

One of the noble gases. Commonly used to refer to HID bulbs.

## ■ Xenon light

Headlights with HID bulbs.

**See also** D(...), Discharge bulb, HID.

## ■ Xenon system

A complete xenon system consists of the HID bulb, the high-voltage starter and the electronic ballast which controls the electric arc.

# Sales and marketing **tools**

We've created useful **tools** to satisfy your customers' needs and expectations and to help you market and sell Philips Automotive products with success. As always, we strive to **educate** the consumer with coherent and **consistent in-store** information. We invite you to **place your order** using the ordering information or simply **contact** your Philips sales representative!

To place an order, please contact your Philips sales representative.

# In-store excellence

The in-store experience is essential. We constantly strive to improve the consumers' shopping experience by identifying and understanding their behavior and by satisfying their wants and needs. We strive to educate the consumer by delivering clear and comprehensive messages through packaging, displays and merchandising. **In-store excellence is our goal.**

We offer **complete kits** to dress up your shelves. These may be customized if needed. We provide **shelf-planning** services too.

For more information, contact your philips sales representative.

## Headers

Help identify the given area among a complete category thanks to clear denomination and visualization.

## Sub-headers

Help to highlight main product benefits in a colorful and easy way, one for each product range. Easy to install on first row above product range.

## Lamp type indication

After checking the lamp type needed in the application guide, it simplifies the identification of the lamp type on the shelf. It slides easily into the price hangers. Color of the lamp-type is linked to the color of the range.

## Floor stickers

Attractive floor stickers help lead your customers to the product.

12V application guide

## Separator wings

- Create extra milestones for the shopper's in-store experience.
- Split the full shelf into sub-categories and facilitate readability off the shelf.
- Offer additional communication space.

## Understanding Philips **ordering codes**

All our automotive lighting products can be ordered using **Philips Order Entry**.

With Philips Order Entry you can identify the **lamp type**, the **product range** and the **packaging type**.

Example: **12972XVB1**, H7 X-tremeVision, single blister

### 3/ Packaging type

**Commercial pack**  
Material carton  
Contents 1 lamp  
Contents 10 lamps  
Packaging type **C1/CP**

**Single blister**  
Material carton/plastic  
Contents 1 lamp  
Packaging type **B1**

**Double blister**  
Material carton/plastic  
Contents 2 lamps  
Packaging type **B2**

**Special pack**  
Material plastic  
Contents **S2** 2 lamps  
Contents **SM** 4 lamps  
(2 headlamps,  
2 position lamps)  
Packaging type **S2/SM**

**Xenon single blister**  
Material carton/plastic  
Contents 1 lamp  
Packaging type **S1**

**LED X1/X2 blister**  
Material carton/plastic  
Contents **X1** 1 lamps  
Contents **X2** 2 lamps  
Packaging types **X1/X2**

### 1/ Lamp type

Every **lamp type** is designated by Philips with a unique number called lamp type.

- All 12V lamps start with 12 (for example: 12972 for H7 12V)
- All 24V lamps starting with 13 (for example: 13972 for H7 24V)

### 2/ Range type

Most lamp types are available in different product **ranges**.

These are indicated by a **color code**. The color code is used on ordering code pages and on Which lamp for which function pages of each section, to indicate the availability of a lamp in a specific product range.

#### Color code

|  |                                                 |                         |
|--|-------------------------------------------------|-------------------------|

## Important information about ordering X-tremeVision lamps

Philips X-tremeVision halogen lamps have two sets of ordering codes depending on the country you are located in

The codes marked with an aqua are used for ordering X-tremeVision lamps in the following countries:

|            |                |            |                    |                 |                |
|------------|----------------|------------|--------------------|-----------------|----------------|
| Armenia    | Belarus        | Germany    | Russia             | Norway, Sweden) | Ukraine        |
| Austria    | Czech Republic | Kazakhstan | Scandinavia        | Slovenia        | United Kingdom |
| Azerbaijan | Georgia        | Moldova    | (Denmark, Finland, | Switzerland     | Uzbekistan     |

The codes marked with a black are used for ordering X-tremeVision lamps in the following countries:

|                    |                              |               |             |              |                 |
|--------------------|------------------------------|---------------|-------------|--------------|-----------------|
| Albania            | Chile                        | French Guyana | Latvia      | Montenegro   | Serbia          |
| Algeria            | Colombia                     | Gabon         | Lebanon     | Morocco      | Slovakia        |
| Andorra            | Democratic Republic of Congo | Ghana         | Libya       | Palestine    | South Africa    |
| Argentina          | Costa Rica                   | Greece        | Lithuania   | Panama       | Spain           |
| Australia          | Croatia                      | Guadeloupe    | Macedonia   | Paraguay     | Tunisia         |
| Benelux            | Cyprus                       | Guatemala     | Madagascar  | Peru         | Turkey          |
| Bolivia            | Ecuador                      | Hungary       | Malta       | Poland       | United Emirates |

**Important** LED lighting is for interior and off-road use only. Philips LED headlamps, fog and signaling lamps are currently not ECE homologated and are not for use on public roads. When using LED headlamps, fog and signaling lamps on public roads, you risk losing your driver license and car insurance, as well as legal penalties.

**Philips LED lighting is not available in all countries.** For more information, please contact your Philips representative.
